11. 'Who' inhales a toxin while performing an autopsy, which puts her life in danger?	11. Cam	Many Characters Were Named After Real People Several characters, including Dr. Brennan's full name Temperance Brennan, and others, were drawn from real-world scientists, colleagues, and friends of Kathy Reichs.
12. It is discovered that 'who' has Coulrophobia (a fear of clowns)?	12. Booth	
		Zack Addy Was Almost a Very Different Character Originally, Zack was written to be less socially awkward, but the writers leaned into Eric Millegan's unique take — and it became one of the show's most beloved quirks.
		The Christmas Episodes Had Real Meaning Each holiday episode was carefully crafted to show emotional growth — especially for Brennan, who gradually softens toward tradition and family as the seasons go on.
		The Lab Skeleton Has a Name That iconic skeleton hanging in the Jeffersonian lab? Fans nicknamed it "Boney" — and cast/crew often posed with it between takes.
