

Volume 01

Wooden Spoon Quizzes

The Ultimate Science & Nature Quiz Book

Think You Know the World Around You? Let's Find Out!

From animals and ecosystems

To atoms, planets, and scientific breakthroughs

Earth, space, biology, chemistry — this quiz book is bursting with fascinating questions to test your knowledge of the natural world!

Perfect for curious minds, classroom fun, family game nights, or solo brain workouts!

Grab a pen, gather your fellow science buffs, and see who's got the sharpest mind!

Let the science quiz begin! 🌍 🗨️

 **Did you know...** plants can “talk” to each other using **chemical signals** when they're under attack by insects?

Round 1

1. What does 'gut flora' mean?
2. Cirrhosis and Hepatitis affect what major organ of the body?
3. Lyme Disease is contracted in humans from...?
4. What is the most commonly transplanted human organ in the world?
5. Which part of the body do bronchia infections mainly attack?
6. Which chemical element was named after a planet in our solar system?
7. How many moons orbit the Earth?
8. What name is given to the projecting part of the face of a dog?
9. What kind of element is gold?
10. Myalgic pain affects which part of the body?
11. What useful antibiotic was famously discovered through an accidental fungal contamination?
12. What do you call a group of stars that form a picture?

Round 2

1. GPS is a space-based radio-navigation system, what does GPS stand for?
2. Which part of the body is affected by gingivitis?
3. What is Herpetology?
4. Which hemisphere of the brain controls the right side of the body?
5. For which disease process is the drug Lasix commonly prescribed?
6. What is a cholecystectomy?
7. What does the emergency procedure CPR stand for?
8. What is a phlebotomist?
9. What does a sphygmomanometer measure?
10. The caterpillar is the larval stage of which animal?
11. What is the groove under the nose called?
12. In the human body, the lungs are responsible for removing which gas from the blood?

Round 3

1. What is earth's sister planet known as?
2. What is the system of the Human Body responsible for the body defence?
3. What keeps you balanced?
4. What is a baby seahorse called?
5. What substance are human nails made of?
6. What is a Katydid?
7. Ophthalmology relates to....?
8. Besides the cervical and thoracic, which other vertebrae comprise the spine?
9. What kind of animal is an impala?
10. When in a group, which animals are collectively called a flamboyance?
11. What is the name of the cranial bone just above your ear?
12. What is the name of NASA's most famous and versatile space telescope?

Round 4

1. What gas is given off by pouring dilute sulphuric acid on to granulated zinc?
2. What sort of creature is a Bushmaster?
3. Which fungal infection of the feet is a common form of ringworm?
4. What name is given to the full moon nearest the autumn equinox?
5. Which gas used in advertising signs has the chemical symbol Ne?
6. Which chemical element is represented by the symbol O?
7. Which nonmetallic element is represented by the symbol P?
8. Which valuable gems are formed by nacre in oysters?
9. Which precious metal is represented by the chemical symbol Pt?
10. What name is given to a blend of metals, such as steel or brass?
11. Which metal has the chemical symbol Zn?
12. What is 11/11 as a percentage?

Round 5

1. How many hours a day does a Koala spend asleep?
2. What animal family does the species Snapper belong to?
3. Strawberries are in the same botanical family as which flower?
4. A web page is accessed using the HTTP protocol. What does HTTP stand for?
5. What does a Palaeontologist study?
6. What types of teeth do humans have?
7. One molecule of Hydrogen Peroxide has how many Oxygen atoms in it?
8. Which Planet is made out of diamonds?
9. What is used to measure a force?
10. What shape is DNA?
11. Which gas is represented by the chemical symbol He?
12. What does the abbreviation LCD stand for in electronics?

Round 6

1. How many teeth do adult humans have?
2. What are the tallest species of trees in the world?
3. What kind of drug would most likely be used to treat pulmonary embolism?
4. What was invented first? Car, Aeroplane, TV or Telephone?
5. What is the strongest natural fibre known to man?
6. What type of physician treats brain seizures or epilepsy?
7. What type of reaction is identified by burning a substance in excess oxygen?
8. What is the outer part of the earth called?
9. AM Sound Waves commonly seen on the radio stand for?
10. What is the body temperature of a Snake?
11. What is the opening in your eye called that's size is controlled by the iris?
12. Who constructed the Great Western Railway and the SS Great Britain?

Round 7

1. In which part of the body would you get gingivitis?
2. What does the word 'Hemo' refer to?
3. After exercise, what compound builds up in the body, causing pain?
4. What is the common name for the chemical compound sodium chloride?
5. What is the weight of a black hole?
6. Most of the UK's Golden Eagles and Peregrine Falcons are found in which Country?
7. Animals that are primarily awake during the day are known as?
8. What part of your body is the cranium?
9. What is the name of the vessels coming out of the heart?
10. What is the normal body temperature for an adult human?
11. What is the scientific name for the Northern Lights?
12. What type of drug would most likely be used to treat a pulmonary embolism?

Round 8

1. What is the scientific study of life called?
2. What is the common multiple of 4 and 5?
3. What is the hardest working muscle in the Human body?
4. A Blue Whale has a heart roughly the size of a what?
5. What male sea creature is the only male animal to become pregnant?
6. What vitamin are citrus fruits noted for?
7. The word 'Pharmacy' applies to what kind of establishment?
8. What is a synchronous diaphragmatic flutter?
9. What is the common name of the plant 'hedera helix'?
10. Which scientist is credited for inventing the industrial process for making ammonia?
11. What kind of cells compose the human nervous system?
12. An abnormally high concentration of salt in the Black Sea causes visitors to what?

Round 9

1. What is the Big Bang said to have created?
2. Which element is needed for combustion to occur?
3. What is a number times itself called?
4. Which term describes twins resulting from two different eggs?
5. What is the longest nerve in the human body?
6. Which famous scientist said 'Imagination is more important than knowledge'?
7. Ambidextrous refers to which ability?
8. Frogs belong to which animal group?
9. What is a Canis Latrans, popular in the American West?
10. How do you find age in trees?
11. The Bobcat is native to which continent?
12. Vinegar and Baking Soda have a chemical reaction because.....?

Round 10

1. What colour is the fever transmitted by the mosquito?
2. Where is the Zunil impact crater located?
3. What is the medical term for the 'collarbone'?
4. For how many years can some Olive Tree's survive?
5. What is an ocean gyre?
6. What is Misophonia?
7. Bruxism is the medical term for what activity?
8. What is Munchausen Syndrome?
9. Anhidrosis is the inability to do what?
10. What is a hemostat?
11. In East Africa, safari ants are used as what?
12. Which part of the human body never gets cold?

Round 11

1. In which part of the body does scorpion store venom?
2. What does the NHS stand for?
3. What joint is supported by the rotator cuff?
4. What part of science is the plum pudding theory about?
5. What colour is the strong alkaline on the Ph scale?
6. What is the greatest invention of the Wright Brothers?
7. What liquor is made from agave plants?
8. Where can a melanoma occur?
9. The epidermis is the outer layer of what human organ?
10. Which disease is known as pink eye?
11. Anemia is caused by a deficiency of what?
12. What is 'Cold Fusion'?

Round 12

1. What comet was first recorded in 240 BC and returns every 74-79 years?
2. Who invented vulcanized rubber?
3. Which creature has the longest pregnancy time?
4. What fleshy muscular organ is joined to the hyoid bone?
5. What company commercialized aspirin?
6. How many eyelids does a Camel have per eye?
7. What science deals specifically with plant and animal life in the sea?
8. What is the name of the process in which plants convert sunlight into oxygen?
9. What element symbol is Au?
10. Which of the following is not a valid field of science? Geology, Calligraphy, Physics or Astronomy
11. What disease of the human body is often called the white death?
12. How many arms do most starfish have?

Round 13

1. On 27 January 1880, who patented the first electric lamp?
2. What is the smallest organ in the human body?
3. The spinal cord lies in which part of the human body?
4. What is a group of owls called?
5. What is the correct name for an interstellar cloud of dust?
6. What force causes oceans to have tides?
7. What is concrete reinforced with to make reinforced-concrete?
8. What is the K on the Periodic Table of Elements?
9. What does your blood carry?
10. What is the Moon? A planet, An asteroid, A natural satellite or A star
11. What category does an Elephant Seal belong to? Carnivore, Vegetarian, Herbivore or Vegan
12. What is another name for water?

Round 14

1. What symbol is Scandium on the periodic table?
2. What was Y2K?
3. What pest can survive a nuclear blast in close proximity?
4. Why do male peacocks have such fancy plumage?
5. Lunokhod 1 was the USSR's first what?
6. Which Insect has the shortest life?
7. What is the Chemical Symbol for Mercury?
8. 'Planet' comes from a Greek word meaning what?
9. How many noble gasses are there?
10. What flowers name in Greek means 'Rose Tree'?
11. What is a fibrous band that connects muscle to bone?
12. How does a Lamprey feed?

Round 15

1. What followed the Triassic Period?
2. The opossum belongs to what animal group?
3. Which Bird can swim but can't fly?
4. Where in the Human Body do you find Collagen?
5. How many stomachs has a cow?
6. Which metal has the highest melting point?
7. Which salad item is Nasturtium Officinale?
8. What is the highest cloud formation?
9. What high-tech item can slide, swivel or flip?
10. What did James Hargreaves invent in 1764?
11. How is the European Organisation for Nuclear Research better known?
12. What is a male swan called?

Round 16

1. Glaucoma affects which part of the body?
2. Which flightless bird lays the worlds largest eggs?
3. What is a puffball?
4. What happens to a female butterfly after it lays eggs?
5. In what type of environment do most crustaceans live?
6. Which natural disaster is measured on the Richter Scale?
7. What is the main ingredient of glass?
8. Does a millipede have more, less or exactly 1,000 feet?
9. An ore is a mineral that contains what?
10. Is the Whale Shark a mammal or a fish?
11. What does a pH level measure?
12. How many orbits of the earth did John Glenn make in Mercury-Atlas 6 in 1962?

Round 17

1. The olfactory organs are concerned with the sense of what?
2. What kind of animal is a parakeet?
3. The optic nerve connects the brain to which part of the body?
4. Which tree can be English, Dutch or Wych?
5. An aster is a type of what?
6. Name the longest bone in the human body?
7. What fluid results from lachrymation?
8. What is the name for radiations of a wavelength longer than and immediately next to the visible spectrum?
9. Complete Newton's third law of motion, 'Every action has an equal and opposite ____' What?
10. In which unit is the height of a horse measured?
11. Where would you find a constellation?
12. Bronze is mainly an alloy of tin and which other metal?

Round 18

1. Which chemical element has the symbol Pb?
2. What is a baby seal called?
3. What organ is also known as the ticker?
4. What compound in the human body acts as a neurotransmitter and helps to regulate temperature?
5. How much do astronauts 'grow' in space?
6. How often does Halley's Comet pass earth?
7. In 1974, Stephen Hawking developed his radiation theory about which regions of space?
8. Which Primate species is the closest genetic cousin to humanity?
9. How many young does a kangaroo usually produce at any one time?
10. What part of the body of a Manx cat is missing which is present in most other cats?
11. What is the system consisting of the Earth's sun and the eight planets orbiting it called?
12. When an animal hibernates what is it actually doing?

Round 19

1. What are the scientists that study volcanoes called?
2. What is the technical term for someone who studies fish?
3. What is the name given to rain with a pH under 5.6?
4. To which animal group did dinosaurs belong?
5. What kind of test checks for breast cancer using X-rays?
6. What in the medical world was first classified into the ABO system in 1902?
7. CT Scans are used in medicine - What does CT stand for?
8. Which fruit inspired Sir Isaac Newton?
9. What is the most abundant element in the universe?
10. What is the bottom colour on a rainbow?
11. The Crane Fly is also known by what other name?
12. What does 'REM' stand for?

Round 20

1. What do Myrmecologists study?
2. What kind of snake is the world's heaviest?
3. What is the name of the fluid found in thermometers?
4. What metallic element is also the name of a US coin?
5. Artemisinin and Derivatives are drugs found to act especially well on which disease?
6. What part of your body helps you keep your balance?
7. Which imperial unit of measurement is equal to 2.54 centimetres?
8. The 'venae cavae' are found in what part of the body?
9. What kind of creature is the newt?
10. Which part of the body removes old red blood cells, holds a reserve of blood in case of hemorrhagic shock and recycles iron?
11. Which chemical is added to the water of swimming pools?
12. In animal classification, which genus refers to modern humans?

Round 21

1. There are two main types of 'twin', one is 'identical' what is the other?
2. Rickets is caused by a deficiency in what?
3. In medicine, what does the 'M' in BMI stand for?
4. What specialist treats the nervous system?
5. In computing, eight bits usually make up which unit of storage?
6. The study of phrenology involves feeling what part of the human body?
7. Which organ filters the blood and produces urine?
8. Which is the smallest planet in the solar system?
9. Which letter is used to represent the speed of light?
10. Which organ of the body produces insulin?

Round 22

1. A regular tetrahedron takes which familiar shape?
2. Which three-letter word is formed when the chemical symbols for tungsten and silver are written together?
3. In 1920, which Czech playwright coined the word 'Robot' to describe a human-like automation?
4. What name did NASA give to its 'planet hunter' probe launched in 2018 to search for worlds in outer space?
5. By what collective name were the Soviet Union's astronauts known?
6. Which element is also known as quicksilver?
7. Sirius, the brightest star in the Earth's night sky, is also known by which name?
8. If you were using a hygrometer, what would you be measuring?
9. The Fujita scale is used for rating the intensity of what?
10. What term is used to describe water that falls from a cloud as rain, snow or hail?
11. Which painkilling drug is named after the Greek god of dreams?
12. At what temperature would both a Fahrenheit and Celsius thermometer show a reading of the same number?

Round 23

1. Calcium Oxide is commonly known by what name?
2. Which poison is sometimes called prussic acid?
3. Which well-known everyday drug was originally developed from willow bark?
4. Which chemical element has the symbol Zn?
5. Who is credited as the inventor of the electrical battery and the discoverer of methane?
6. The Soviet Cosmonaut, Alexei Leonov was the first to do what?
7. What is Albert Einstein's mass-energy equivalence formula?
8. Which element did Henry Cavendish discover in 1766?
9. The LHC is the world's largest and most powerful particle collider in the world. For what do the letters 'LHC' stand for?
10. Which word describes the bending of light as it enters and leaves glass?
11. What is minus 273.15 degrees Celsius known as?
12. Which is the brightest planet when viewed from Earth?

Round 24

1. Which fruit is also known as a Chinese Gooseberry?
2. Ailurophobia is the extreme or irrational fear of which animal?
3. How long does it take the Earth to go around the Sun?
4. What is the name given to the lower part of a river where it meets the sea?
5. Spheksophobia is the fear of which insect?
6. What is the Kelvin Scale used to measure?
7. If a volcano is neither active nor extinct, what is it known as?
8. A Sphygmomanometer measures what?
9. Which element has the lowest melting and boiling points of all the elements?
10. In physics, what is the name of the energy an object possesses as a result of its motion?
11. In the Northern Hemisphere the summer solstice occurs during which month of the year?
12. What is the common name for Vitamin B9?

Round 25

1. Which type of lens curves outward?
2. Plumbum is the Latin name for which chemical element?
3. Valentina Tereshkova was the first woman to do what?
4. Triton is the largest moon of which planet?
5. Water is a chemical substance composed of hydrogen and which other element?
6. Which colour is at the top of a rainbow?
7. Olympus Mons is a very large volcano on which planet?
8. On which island did the flightless bird the dodo live, until it was hunted to extinction by man?
9. Is hypotension high or low blood pressure?
10. Copper is named after which island in the Mediterranean?
11. In which field of study might you come across Romer's gap?
12. What is pathology the study of?

Round 26

1. With which animal would you associate the constellation, Ursa Major?
2. What is the study of celestial bodies and the universe called?
3. What is the name of a triangular block of glass used to 'bend' a ray of light?
4. A supernova is the explosive death of what?
5. Which mathematical term describes the likelihood that an event will occur?
6. Haemoglobin carries which gas?
7. What does sickle-cell disease affect?
8. Which gas forms about 78% of the atmosphere's lowest layer?
9. What colour is the most attractive to mosquitoes?
10. The tiger, lion, jaguar and leopard are all types of which genus of big cat?
11. What is the practice of seeking water with a forked twig called?
12. By what name is infectious mononucleosis better known?

Round 27

1. Which unit of heat is equal to 4.184 joules?
2. Which branch of surgery is concerned with the spine and joints?
3. What is the term used for a drug designed to reduce body fluid?
4. Which element has atomic number 76?
5. Emphysema primarily affects which part of the body?
6. Orthodontics is a branch of which medical science?
7. What do we call an anaesthetic which only affects part of the body?
8. Anthracite and lignite are types of which fossil fuel?
9. In physics, which term represents the quantity of matter in a body?
10. Which part of the body is affected by Trigeminal Neuralgia?
11. From which direction does the sun rise?
12. Hydrogen and what other element form the gas methane?

Round 28

1. The name of what chemical element comes from the Latin for 'flow'?
2. How many volts are there in one megavolt?
3. What is the collective name for the sun and the bodies in its gravitational field?
4. What Planet is sometimes known as the Morning Star?
5. What sort of creature is a gudgeon?
6. Which mineral was used to produce a spark in guns?
7. In which year was the first mouse cloned?
8. How is Light Amplification by Stimulated Emission of Radiation more commonly known?
9. Which indigestion treatment is more properly called Sodium Hydrogen Carbonate?
10. What was invented by chemist WILLIAM CRUICKSHANK around 1800?
11. What sort of creature is a GREYLAG?
12. Which explosive mixture of NITROGLYCERINE and KIESELGUHR was devised by Alfred Nobel?

Round 29

1. What is a mercury mixture used in dentistry?
2. Which natural red dye is obtained from the dried bodies of certain Mexican insects?
3. In mathematics, what is LOG short for?
4. For which drug is diamorphine the technical name?
5. What is the term for when light bends around an object?
6. Which planet has the most moons?
7. What is the first element on the periodic table?
8. 'The Voyage of the Beagle', published in 1839, is the journal of which scientist?
9. What is deoxyribonucleic acid more commonly known as?
10. In physics, what kind of energy is produced by the motion of an object?
11. Which country is considered to be the birthplace of modern medicine?
12. What are the only two elements that are liquid at room temperature?

Round 30

Inventions

1. What common hygiene item was invented by William Addis in the 18th century?
2. Developed in 1950 by the Zenith Radio Corporation, what device was officially known as the "Lazy Bones"?
3. The sandwich, named after the 4th Earl of Sandwich, was invented in which country?
4. In the 15th century, William Caxton established England's first what?
5. Alessandro Volta invented the first electric what in 1800?
6. Sir Barnes Wallis, who passed away in 1979, is best known for inventing which wartime device?
7. Bette Graham, inventor of Liquid Paper correction fluid, was the mother of which member of The Monkees?
8. Which instant photography item, associated with Edwin Land, was first sold on November 28, 1948?
9. Which iconic Australian breakfast spread was invented in the 1920s by chemist Dr. Cyril P. Callister?
10. What gardening tool, invented by Edwin Budding in 1831, revolutionized lawn care?
11. What type of paper, invented in 1806 by Ralph Wedgwood, allowed for the creation of duplicate documents?
12. How much money, in U.S. dollars, did the inventor of the microwave oven receive for his discovery?

⚡ Did you know... a single bolt of lightning is **five times hotter** than the surface of the Sun?

ANSWERS

ROUND 1

1. Bacteria that lives in our intestines
2. Liver
3. Ticks
4. Kidneys
5. Lungs
6. Uranium
7. One
8. Muzzle
9. Metal
10. Muscles
11. Penicillin
12. A constellation

ROUND 3

1. Venus
2. The Immune System
3. Fluid in the Ear
4. Fry
5. Keratin
6. An insect
7. Eye conditions
8. Lumbar
9. Antelope
10. Flamingos
11. Temporal bone
12. The Hubble Space Telescope

ROUND 5

1. 18 to 22 hours
2. Fish
3. Rose
4. Hypertext Transfer Protocol
5. Fossils
6. Incisors, Canines, Premolars and Molars
7. 2
8. 55 Cancri e
9. Newton Meter
10. Double Helix
11. Helium
12. Liquid Crystal Display

ROUND 2

1. Global Positioning System
2. Gums
3. The study of amphibians and reptiles
4. Left Hemisphere
5. Heart Failure, Liver Disease, Kidney Disease
6. Gallbladder removal
7. Cardiopulmonary resuscitation
8. A Technician who collects blood from patients and prepare the samples for testing
9. Blood Pressure
10. Butterfly
11. Philtrum
12. Carbon Dioxide

ROUND 4

1. Hydrogen
2. Snake
3. Athletes Foot
4. Harvest Moon
5. Neon
6. Oxygen
7. Phosphorus
8. Pearls
9. Platinum
10. Alloy
11. Zinc
12. 100%

ROUND 6

1. 32
2. Redwoods
3. Anticoagulant
4. Telephone
5. Silk
6. Neurologist
7. Combustion
8. Crust
9. Amplitude Modulation
10. Ranges from 17.7 to 22.3°C
11. Pupil
12. Isambard Kingdom Brunel

ANSWERS

ROUND 7

1. Gums
2. Blood
3. Lactic Acid
4. Salt
5. Between about 3 and 10 solar masses
6. Scotland
7. Diurnal
8. Skull
9. Arteries
10. 98.6°F (37°C)
11. Aurora Borealis
12. Anticoagulant

ROUND 8

1. Biology
2. 20
3. The Heart muscle
4. A Volkswagen Beetle
5. Seahorse
6. Vitamin C
7. Chemist
8. Hiccups
9. Common Ivy
10. Fritz Haber
11. Neurones
12. Float

ROUND 9

1. The Universe
2. Oxygen
3. Squared
4. Fraternal
5. Sciatic Nerve
6. Albert Einstein
7. Ability to use both the right and left hand equally well
8. Amphibians
9. Coyote
10. It's girth
11. North America
12. one is an acid and the other a base

ROUND 10

1. Yellow
2. The planet Mars
3. Clavicle
4. Over 2,000 years
5. A large, oceanic surface current
6. Negative reaction to specific sounds
7. Grinding of the teeth
8. Psychological Disorder
9. Sweat
10. Surgical instrument
11. Surgical Suture
12. Eyes

ROUND 11

1. Tail
2. National Health Service
3. Shoulder
4. Atoms
5. Purple
6. Airplane
7. Tequila
8. Skin
9. Skin
10. Conjunctivitis
11. Red blood cells
12. A hypothetical nuclear reaction

ROUND 12

1. Halley's Comet
2. Goodyear
3. Elephants
4. Tongue
5. Bayer
6. Three
7. Marine Biology
8. Photosynthesis
9. Gold
10. Calligraphy
11. Tuberculosis
12. Five

ANSWERS

ROUND 13

1. Thomas Edison
2. Pineal Gland
3. Back
4. Parliament
5. Nebula
6. Gravity
7. Steel
8. Potassium
9. Oxygen
10. A natural satellite
11. Carnivore
12. H₂O

ROUND 15

1. Jurassic
2. Marsupials
3. Penguin
4. The Skin
5. Four
6. Tungsten
7. Watercress
8. Cirrus
9. Mobile Phone
10. Spinning Jenny
11. CERN
12. Cob

ROUND 17

1. Smell
2. Bird
3. Eye
4. Elm
5. Plant
6. Femur
7. Tears
8. Infra Red
9. Reaction
10. Hand
11. In the sky
12. Copper

ROUND 14

1. Sc
2. A computing flaw for the year 2000
3. Cockroach
4. To attract a mate
5. Robotic 'moon-walker'
6. Mayfly (from 1/2 an hour to a few weeks)
7. Hg
8. Wanderer
9. Seven
10. Rhododendron
11. Tendon
12. By sucking

ROUND 16

1. Eyes
2. Ostrich
3. Fungus
4. It dies
5. Water
6. Earthquake
7. Sand
8. Less
9. Metal
10. Fish
11. Acidity
12. 3

ROUND 18

1. Lead
2. Pup
3. Heart
4. Serotonin
5. 1-2 inches
6. Approx. Every 76 Years
7. Black Holes
8. Chimpanzee
9. One
10. Tail
11. Solar System
12. Sleeping

ANSWERS

ROUND 19

1. Volcanologist
2. Ichthyologist
3. Acid Rain
4. Reptile
5. Mammogram
6. Blood
7. Computed Tomography
8. Apples
9. Hydrogen
10. Violet
11. Daddy Long Legs
12. Rapid Eye Movement

ROUND 20

1. Ants
2. Green Anaconda
3. Mercury
4. Nickel
5. Malaria
6. Inner Ear
7. Inch
8. Heart
9. Amphibian
10. Spleen
11. Chlorine
12. Homo

ROUND 21

1. Fraternal
2. Vitamin D
3. Mass
4. Neurologist
5. Byte
6. Skull
7. Kidney
8. Mercury
9. C
10. Pancreas

ROUND 22

1. Pyramid
2. WAG - W and Ag
3. Karel Čapek
4. Tess
5. Cosmonauts
6. Mercury
7. Dog Star
8. Humidity
9. Tornadoes
10. Precipitation
11. Morphine (Morpheus)
12. -40

ROUND 23

1. Quicklime
2. Hydrogen Cyanide
3. Aspirin
4. Zinc
5. Alessandro Volta
6. Space Walk
7. $E = mc^2$
8. Hydrogen
9. Large Hadron Collider
10. Refraction
11. Absolute Zero
12. Venus

ROUND 24

1. Kiwi
2. Cats
3. 365 days, 6 hours, 9 minutes
4. Estuary
5. Wasps
6. Temperature
7. Dormant
8. Blood Pressure
9. Helium
10. Kinetic energy
11. June
12. Folic Acid

ANSWERS

ROUND 25

1. Convex
2. Lead
3. First woman in space
4. Neptune
5. Oxygen
6. Red
7. Mars
8. Mauritius
9. Low
10. Cyprus
11. The study of evolutionary biology
12. Disease

ROUND 26

1. Bear
2. Astronomy
3. Prism
4. Star
5. Probability
6. Oxygen
7. The shape of red blood cells
8. Nitrogen
9. Red-orange hues
10. Panthera
11. Water dowsing
12. Glandular fever

ROUND 27

1. Kilocalories
2. Orthopedic surgery
3. Diuretics
4. Osmium
5. Lungs
6. Dentistry
7. Local Anaesthetic
8. Coal
9. Mass
10. The Face
11. The East
12. Carbon

ROUND 28

1. Flourine
2. One million
3. Solar System
4. Venus
5. Fish
6. Flint
7. 1997
8. Laser
9. Sodium Bicarbonate
10. Trough Battery
11. Goose
12. Dynamite

ROUND 29

1. Amalgam
2. Carmine
3. Logarithm
4. Heroin
5. Diffraction
6. Saturn
7. Hydrogen
8. Charles Darwin
9. DNA
10. Kinetic energy
11. Alexandria, Egypt
12. Mercury and Bromine

ROUND 30 – Inventions

1. The toothbrush
2. The TV remote control
3. England
4. Printing press
5. Battery
6. The bouncing bomb
7. Michael Nesmith
8. The Polaroid camera
9. Vegemite
10. The lawn mower
11. Carbon paper
12. \$2
