	QUESTION	ANSWER	ONE FOR THE BAR!
1	It's every new father's worst nightmare, but Robert Thorn is offered a secret solution when his newborn son dies in a Roman hospital. What does he agree to do without telling his wife, Katherine?	**Secretly replace his dead baby with another newborn boy**	*The Omen* developed a reputation as one of Hollywood's most cursed productions. Lightning strikes, aircraft incidents and other frightening coincidences became associated with the film. The incidents were real or reported, but there is no evidence of a supernatural curse.
2	Damien's fifth birthday party certainly goes with a bang, although the entertainment isn't quite what the guests expected! How does the family's nanny shock everyone at the celebrations?	**She hangs herself from the roof of the house**	Gregory Peck and screenwriter David Seltzer reportedly travelled on separate aircraft that were struck by lightning. Peck also changed plans to avoid a flight that subsequently crashed, killing everyone aboard. Talk about tempting fate!
3	Following the nanny's horrific death, a mysterious replacement arrives at the Thorn household without being invited. What is her surname?	**Baylock**	Young Harvey Stephens reportedly secured the role of Damien after attacking director Richard Donner during his audition, scratching at his face and kicking him in the groin. Apparently, that's one way to make a lasting impression at a job interview!
4	A family outing to church turns into an unholy nightmare when young Damien suddenly loses control. How does he react as the family approaches the church?	**A sudden, violent outburst of terror and physical aggression**	During the terrifying safari park sequence, animal handlers used baby baboons inside the car to provoke the adults outside. Lee Remick's fear was genuine, particularly when the car stalled and the animals continued their attack.
5	During a visit to a wildlife park, Katherine discovers that her little darling isn't exactly popular with the animal kingdom. Which animals launch a terrifying attack on her car?	**Baboons**	The famous baboon attack was filmed at Windsor Safari Park in Berkshire. The site later became LEGOLAND Windsor Resort. It's certainly a rather different sort of family entertainment these days!
6	Father Brennan's warnings about Damien prove dangerously prophetic when the priest meets a grisly end during a sudden storm. What falls from a church and kills him?	**A lightning rod from the church roof**	Special previews were held on 6 June 1976, allowing the publicity team to exploit the date 6/6/76. Cinema displays emphasised the sinister connection with the number 666.
7	Photographer Keith Jennings begins to suspect something supernatural is happening after examining several disturbing photographs. What unusual feature appears in the pictures, seemingly predicting how people will die?	**Dark lines or shadows indicating the manner of their deaths**	Before becoming *The Omen*, the production was associated with the alternative titles *The Anti-Christ* and *Birthmark*. Neither quite has the same ominous ring to it!
8	While investigating Damien's origins in an Italian cemetery, Robert and Jennings make a horrifying discovery inside the grave of the boy's supposed biological mother. What do they find buried there?	**The skeleton of a jackal**	Unlike many successful horror films, *The Omen* wasn't originally adapted from a bestselling novel. David Seltzer wrote a novelisation of his screenplay, which was published shortly before the film's release and became a bestseller.
9	Poor Katherine survives one terrifying fall, only to meet an even nastier fate in hospital. How does she eventually die?	**Mrs Baylock throws her from a hospital window**	Produced for approximately $2.8 million, *The Omen* eventually earned around $78.7 million worldwide. Not a bad return for a film about a five-year-old causing absolute havoc!
10	In the ancient city of Megiddo, Robert is given a rather unusual set of weapons to deal with his devilish adopted son. How many sacred daggers does he receive?	**Seven**	Composer Jerry Goldsmith won the Academy Award for Best Original Score. The film's sinister choral piece Ave Satani was also nominated for Best Original Song, an unusual honour for a composition sung in Latin.
11	Robert finally gets the proof he's been dreading when he examines Damien's scalp. What three-digit number does he discover concealed beneath the boy's hair?	**666**	According to the American Film Institute, South African censors altered the ending to show Robert Thorn preparing to stab Damien, creating the impression that good might triumph over evil. A rather different conclusion from the original's chilling final smile!
12	In the film's chilling final scene, Damien attends the funeral of his adoptive parents. Which two powerful figures are standing with him as he turns towards the camera and smiles?	**The President and First Lady of the United States**	Harvey Stephens, who played the original Damien, made a cameo appearance as a reporter in the 2006 remake. Thirty years after terrifying audiences as the Antichrist, he returned to the franchise in a much less devilish role.
